CONVENTION BETWEEN THE UNITED STATES AND GREAT BRITAIN FOR THE PROTECTION OF MIGRATORY BIRDS IN THE UNITED STATES AND CANADA¹

[39 Stat. 1702]

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

Whereas a convention between the United States of America and the United Kingdom of Great Britain and Ireland for the protection of migratory birds in the United States and Canada was concluded and signed by their respective plenipotentiaries at Washington on the 16th day of August, 1916, the original of which convention is word for word as follows:

Whereas, many species of birds in the course of their annual migrations traverse certain parts of the United States and the Dominion of Canada; and

¹ Signed at Washington Aug. 16, 1916; ratification advised by the Senate Aug. 29, ratified by the President Sept. 1, and by Great Britain Oct. 20; ratifications exchanged Dec. 7; proclaimed Dec. 8, 1916. Constitutionality of the treaty and act of July 3, 1918, sustained by the United States Supreme Court in a decision rendered Apr. 19, 1920, in the case of the State of Missouri v. Ray P. Holland (232 U. S. 416); see also U. S. v. Lumpkin (276 Fed. 580).

Canada, by an act of Parliament approved Aug. 29, 1917, gave full effect to this convention and promulgated regulations thereunder May 11, 1918. The validity of the act of the Dominion Parliament was upheld by the Supreme Court of Prince Edward Island in a decision (Michaelmas term, 1920) rendered in the case of The King v. Russell C. Clark. For full text of the Canadian migratory-bird treaty act and regulations, communicate with the Commissioner of Canadian National Parks, Ottawa, Ontario.

Whereas, many of these species are of great value as a source of food or in destroying insects which are injurious to forests and forage plants on the public domain, as well as to agricultural crops, in both the United States and Canada, but are nevertheless in danger of extermination through lack of adequate protection during the nesting season or while on their way to and from their breeding grounds;

The United States of America and His Majesty the King of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, Emperor of India, being desirous of saving from indiscriminate slaughter and of insuring the preservation of such migratory birds as are either useful to man or harmless, have resolved to adopt some uniform system of protection which shall effectively accomplish such objects and to the end of concluding a convention for this purpose have appointed as their respective plenipotentiaries:

The President of the United States of America, Robert Lansing, Secretary of State of the United States; and

His Britannic Majesty, the Right Hon. Sir Cecil Arthur Spring Rice, G. C. V. O., K. C. M. G., etc., His Majesty's ambassador extraordinary and plenipotentiary at Washington;

Who, after having communicated to each other their respective full powers, which were found to be in due and proper form, have agreed to and adopted the following articles:

ARTICLE I

The high contracting powers declare that the migratory birds included in the terms of this convention shall be as follows:

The season for hunting shall be further restricted to such period not exceeding three and one-half

months as the high contracting powers may severally deem appropriate and define by law or regulation.

2. The close season on migratory insectivorous birds shall continue throughout the year.

3. The close season on other migratory nongame birds shall continue throughout the year, except that Eskimos and Indians may take at any season auklets, guillemots, murres, and puffins, and their eggs, for food and their skins for clothing, but the birds and eggs so taken shall not be sold or offered for sale.

ARTICLE IV

The high contracting powers agree that special protection shall be given the wood duck and the eider duck either (1) by a close season extending over a period of at least 5 years, or (2) by the establishment of refuges, or (3) by such other regulations as may be deemed appropriate.

ARTICLE V

The taking of nests or eggs of migratory game or insectivorous or nongame birds shall be prohibited, except for scientific or propagating purposes under such laws or regulations as the high contracting powers may severally deem appropriate.

ARTICLE VI

The high contracting powers agree that the shipment or export of migratory birds or their eggs from any State or Province, during the continuance of the close season in such State or Province, shall be prohibited except for scientific or propagating purposes, and the international traffic in any birds or eggs at such time captured, killed, taken, or shipped at any time contrary to the laws of the State or Province in which the same were captured, killed, taken, or shipped shall be likewise prohibited. Every package containing migratory birds or any parts thereof or any eggs of migratory birds transported, or offered for transportation from the United States into the Dominion of Canada or from the Dominion of Canada into the United States, shall have the name and address of the shipper and an accurate statement of the contents clearly marked on the outside of such package.

ARTICLE VII

Permits to kill any of the above-named birds which under extraordinary conditions may become seriously injurious to the agricultural or other interests in any particular community, may be issued by the proper authorities of the high contracting powers under suitable regulations prescribed therefor by them, respectively, but such permits shall lapse or may be canceled at any time when, in the opinion of said authorities, the particular exigency has passed, and no birds killed under this article shall be shipped, sold, or offered for sale.

ARTICLE VIII

The high contracting powers agree themselves to take, or propose to their respective appropriate law-making bodies, the necessary measures for insuring the execution of the present convention.

The present convention shall be ratified by the President of the United States of America, by and with the advice and consent of the Senate thereof, and by His Britannic Majesty. The ratifications shall be exchanged at Washington as soon as possible and the convention shall take effect on the date of the exchange of the ratifications. It shall remain in force for 15 years and in the event of neither of the high contracting powers having given notification 12 months before the expiration of said period of 15 years of its intention of terminating its operation, the convention shall continue to remain in force for 1 year and so on from year to year.

In faith whereof, the respective plenipotentiaries have signed the present convention in duplicate and have hereunto affixed their seals.

bution, abundance, economic value, breeding habits, and times and lines of migratory flight of such birds, to determine when, to what extent, if at all, and by what means, it is compatible with the terms of the convention to allow hunting, taking, capture, killing, possession, sale, purchase, shipment, transportation, carriage, or export of any such bird, or any part, nest, or egg thereof, and to adopt suitable regulations permitting and governing the same, in accordance with such determinations, which regulations shall become effective when approved by the President.

SEC. 4. That it shall be unlawful to ship, transport, or carry, by any means whatever, from one State, Territory, or District to or through another State, Territory, or District, or to or through a foreign country, any bird, or any part, nest, or egg thereof, captured, killed, taken, shipped, transported, or carried at any time contrary to the laws of the State, Territory, or District in which it was captured, killed, or taken, or from which it was shipped, transported, or carried. SEC. 7. That nothing in this act shall be construed to prevent the several States and Territories from making or enforcing laws or regulations not inconsistent with the provisions of said convention or of this act, or from making or enforcing laws or regulations which shall give further protection to migratory birds, their nests, and eggs, if such laws or regulations do not extend the open seasons for such birds beyond the dates approved by the President in accordance with section three of this act.

Upon his determination an appropriate order will be made.
